

INTRODUCTION

This inventory of flora and fauna seen in Snodland was compiled by David and Marjorie Penney over a period of more than 20 years and shows the dates of sighting. David's *Notes and Bibliography* (printed below) show which of those species had also been listed by Rev. C. H. Fielding in his *Memories of Malling and its Valley* (Henry Oliver, West Malling, 1893) A third list, probably dating from the 1840s, is among manuscript notes made by Rev. Henry Dampier Phelps, Rector of Snodland 1804-1865, and is now at Snodland Museum. This can be seen within the Phelps notes (No. 3) under 'SHS PAMPHLETS'. These are David Penney's lists re-arranged alphabetically:

Brookland Lake 76A1.
Crookhorn Wood 66R13 and Lad's Farm 66W14
Crookhorn 66W/66R9
Dode 66R/66S17; Chalk Pit Field 66WW16; Lad's Farm
Fields 66R/66W19
Grove Farm Pond 66V12
Hanging Hill Wood 66R/66W15; Home Farm 76B16
Holborough Chalk Quarry 66W/76B6
Kingfisher Lakes 66V/66W5
Mount Ephraim 66W/66R10
Paddlesworth Fields 66W/66R4
River edge; churchyard 76A3
The Knob 66W/76B7
Whitedyke Lane 66W8

Wildlife records for the Parish of Snodland 1979-2005
collected by Edward and Marjorie Walters

The vertical dash at the end of each wildlife record signifies that the species was recorded in the book 'Memories of Malling' by the Rev C.H. Fielding M.A. Published by Henry C.H. Oliver of West Malling Kent 1893. If a record does not have a dash, then it was not recorded by Fielding or it cannot be verified with his work.

The habitats of Snodland Parish have altered and changed since the time of the 'Memories of Malling' by Rev C.H. Fielding, and the abundance of wildlife found in his day has gradually grown less as time has gone by. It has markedly declined since the end of the 1980s and continues to do so in the 21st century
